FACT SHEET

MAYOR, POLICE DEPARTMENT ANNOUNCE CITY CONDITIONS FOR ALCOHOLIC BEVERAGE LICENSES

Agreement Clears 40 Licenses; Establishes Predictable Future Process

Mayor Jerry Sanders and Police Chief William Lansdowne today announced conditions that the City will ask the ABC to impose on restaurants in the granting of liquor licenses.

The adoption of these conditions will immediately clear 40 licenses City-wide and will make the process more predictable going forward for restaurant owners. Pending the outcome of Councilmember Faulconer's Task Force, no new licenses will be given in the Mission Beach or Pacific Beach areas.

These conditions attempt to strike a balance between the City's economic development needs and public safety concerns.

In addition, the guidelines seek to ensure that restaurants which apply for an alcohol license remain a restaurant and do not morph into a bar or nightclub. Toward that end, the Mayor's office has convened a working group on the City's special event permit process and the Conditional Use Permit (CUP) process.

THE PROCESS

- All restaurant applicants will continue to request a license directly from ABC, which has the sole authority for issuing alcohol licenses.
- The SDPD will review all applications and determine whether to protest on a case-by-case basis.

CITY CONDITIONS APPLICABLE TO ALL RESTAURANTS

- No live entertainment
- No sale of alcohol for off-premise consumption
- Food must constitute at least 50% of total revenue

ADDITIONAL CONDITIONS FOR THE GASLAMP QUARTER

- Adequate on-site security personnel
- No alcohol service on patios adjacent to public sidewalks after midnight.

RESTAURANTS MEAN BUSINESS

San Diego Region

- Restaurants are a driving force in San Diego economies and job creation.
- Every dollar spent in restaurants generates more than \$2 in business for other industries. *(Source: California Restaurant Association Menu of Facts)*
- Over the past year, some of the largest increases in employment have been in the leisure, hospitality and food service industries. In fact, San Diego County's food and beverage-related occupations are projected to provide the largest number of job openings and provide the greatest job growth through 2008. *(Source: California Employment Development Department)*
- Our county is home to approximately 6,800 food and beverage establishments that collectively employ 95,000 workers. This represents about 6.5% of the region's employed workforce. *(Source: County of San Diego, Department of Environmental Health and California Employment Development Department)*
- In 2004, San Diego's food and beverage-service industry produced \$3.7 billion in taxable sales, generating \$291 million in sales tax revenues for the region. *(Source: California State Board of Equalization.)*
